**CONCISE EXPLANATION OF
NON-ENGLISH PATENT DOCUMENTS**

German patent document DE 100 28 426 A1 relates to a method for exposing a photo-sensitive material so that a fine structure is formed by interference of an exposure beam, upon being diffracted and/or diffused at a coarse structure.

German patent document DT 27 01 176 B1 relates to a document with an information carrier, in which information verifying the authenticity of the document is hidden. The information carrier is characterized by a relief structure, which is formed by plastic deformation through application of an elastic stress field.

Applicants respectfully submit that the requirements of candor and good faith set forth in 37 C.F.R. § 1.56 have been fulfilled, having submitted all known references in compliance with 37 C.F.R. § 1.97 and § 1.98.

Applicants believe that no fee is due at this time. If it is determined that a fee is due, please charge Deposit Account No. 08-2461.

In view of the present submission, it is believed that the above-referenced application is, in all respects, complete and in condition for further examination and favorable consideration. If the Examiner has any questions or comments relating to the present application, he or she is respectfully invited to contact Applicants' attorney at the telephone number set forth below.
